ORACLE CONTENT

Topic no 1:- DBMS

Topic no 2:- Oeacle

Topic no 3:- SQL

-Introduction to sql

-sub-Language of sql

-operators in oracle sql

-functions in oracle sql

-causes of sql

-Joins

-constraints

-Subqueries

-views

-sequence

-index

Topic no 4:-Normalization

-What is Normalization

-Where we need Normalization

-Where we want to use Normalization

-Types of Normalization

-First Normalization

-Second Normalization

-Third Normalization

-BCNF(Boyce-code normal form)

-Fourth Normalization

-Fifth Normalization

Topic no 5:- PL/SQL

-Introduction to PL/SQL

-Difference between SQL and PL/SQL

-Conditional and Looping Statement

-Cursors

-Exception Handling

-Stored Procedures

-Stored Functions

-Triggers
